“City Construction Updates”

Work continues on the reconstruction of Prospect Avenue between 7th Street and 4th Street. Traffic is now allowed from 7th Street to 6th Street or Iron Horse Drive on Prospect Avenue. Construction continues from 6th Street to 4th Street while workers finish up concrete work for driveways and sidewalks along Prospect Avenue. Once that phase of work is complete then the portion of Prospect Avenue between the post office driveway and 4th Street intersection will be reconstructed. Access will be maintained for the traffic exiting the post office however once the next phase of work begins near the post office, traffic will have to exit from the post office to the west as opposed to the east as it is currently being directed.

Fifth Street in southern Norfolk from Monroe Avenue to Jackson Avenue will be closed beginning Tuesday this week while workers install a portion of the new sanitary sewer line that is being constructed in order to better serve the south and west portions of Norfolk. The entrance to Ta-Ha-Zouka Park from Monroe Avenue south to 5th Street will be closed temporarily. That project will be continuing along Monroe Avenue in the next few weeks -weather permitting.

Assistant City Engineer Mark Dolechek asks that drivers use caution when driving in construction areas and plan alternate travel routes accordingly.
