JOHNSON PARK ACCESS ROAD TO BE CLOSED THURSDAY, MAY 24, 2018

Beginning Thursday, May 24, 2018, the access road that runs through Johnson Park will be closed to traffic due to the construction of the Riverfront Trail Project.

Upon being reopened, parking areas will be provided on the east and west sides of the park. However, no vehicle access through the middle portion of the road will be allowed due to the close proximity of the new trail.

Complete closure of the road will last approximately one month with the new configuration set to open directly after.

If you have any questions regarding this closure, please contact the Engineering Division at 402-844-2020.
