## NEWS RELEASE

FOR IMMEDIATE RELEASE:  
Monday, February 25, 2019

### Annual Tornado Spotter Training to be Held Tuesday, March 5

Even though it doesn't feel like it, the severe weather season will be here before we know it. A representative from the National Weather Service (NWS) – Valley, NE will be making their annual visit on Tuesday, March 5, at 7 p.m. at the Lifelong Learning Center (801 E. Benjamin Avenue) to help train professionals and citizens with helping the NWS during a storm.

This class provides a basic understanding of thunderstorm structure, spotting techniques, reporting criteria, as well as safety information and procedures. The class will last around 90 minutes and is free and open to the public. Although the classes are appropriate for all ages, those who are 10 and older will likely get the most out of the training.

For additional information you can call the Norfolk Fire Division at 402-844-2050 or visit the NWS website: <https://www.weather.gov/oax/spotter>
