Daylight Savings Time Serves as a Reminder to Change Clocks and Batteries

City of Norfolk Fire Marshal, Terry Zwiebel, has an easy way to remember when to change the batteries in your smoke alarms: “Change your clocks, change your batteries!”

On Sunday, March 10th, we will be changing out clocks one hour as we “SPRING” ahead to Daylight Savings Time.

“This weekend is a great time to change the batteries in all of your smoke alarms,” said Zwiebel.

If your smoke alarms are older than 10 years old, they need to be replaced (the date should be stamped on the detector). Even if you have smoke alarms that use the power from your house wiring system, the backup battery needs to be changed. Smoke alarms are your first line of defense when it comes to letting you know if there is a fire in your home. If you wait to change the batteries when they beep, they may or may not work during an emergency.

Now is also a great time to sit down with your family and create a home escape plan. Then practice your plan at least two times a year, but more often is better.

So, as we Spring Ahead, remember to “CHANGE YOUR CLOCKS! CHANGE YOUR BATTERIES!”

For a demonstration on how to check your smoke detector, you can visit the City of Norfolk Nebraska Government Facebook page, or follow this [link](#), to check out our video.

If you have any questions please feel free to call the fire station for more information: 402-844-2050
